

musculoskeletal disorders, neurological disorders (including stroke and epilepsy), paraplegia, quadriplegia, other spinal cord impairments, sickle cell anemia, specific learning disability, end-stage renal disease, or another disability or combination of disabilities determined on the basis of an assessment of rehabilitation needs to cause comparable substantial functional limitation; or

(2) An individual with a severe mental or physical impairment whose ability to function independently in the family or community or whose ability to obtain, maintain, or advance in employment is substantially limited and for whom the delivery of independent living services will improve the ability to function, continue functioning, or move towards functioning independently in the family or community or to continue in employment, respectively.

(Authority: Sec. 7(15)(C); 29 U.S.C. 706(15)(C))

Personal assistance services means a range of services, provided by one or more persons, designed to assist an individual with a disability to perform daily living activities, on and off the job, that the individual would typically perform if the individual did not have a disability. These services must be designed to increase the individual's control in life and ability to perform everyday activities on and off the job.

(Authority: Sec. 12(c); 29 U.S.C. 711(c))

Rehabilitation technology means the systematic application of technologies, engineering methodologies, or scientific principles to meet the needs of and address the barriers confronted by individuals with disabilities in such areas as education, rehabilitation, employment, transportation, independent living, and recreation, and includes rehabilitation engineering, assistive technology devices, and assistive technology services.

(Authority: Sec. 7(13); 29 U.S.C. 706(13))

Research is classified on a continuum from basic to applied:

(1) *Basic research* is research in which the investigator is concerned primarily with gaining new knowledge or understanding of a subject without reference to any immediate application or utility.

(2) *Applied research* is research in which the investigator is primarily interested in developing new knowledge, information or understanding which can be applied to a predetermined rehabilitation problem or need. Applied research builds on selected findings from basic research.

(Authority: Sec. 202(i)(1); 29 U.S.C. 761a(i)(1))

State rehabilitation agency means the sole State agency designated to administer (or supervise local administration of) the State plan for vocational rehabilitation services. The term includes the State agency for the blind, if designated as the State agency with respect to that part of the plan relating to the vocational rehabilitation of blind individuals.

(Authority: Sec. 101(a)(1)(A); 29 U.S.C. 721(a)(1)(A))

Target population means the group of individuals, organizations, or other entities expected to be affected by the project. More than one group may be involved since a project may affect those who receive services, provide services, or administer services.

(Authority: Sec. 202(i)(1); 29 U.S.C. 761a(i)(1))

Subpart B—What Projects Does the Secretary Assist?

§ 350.10 What are the general requirements for Disability and Rehabilitation Research Projects?

Disability and Rehabilitation Research Projects must meet the following requirements:

(a) Carry out one or more of the following types of activities, as specified in §§ 350.13–350.19:

- (1) Research.
- (2) Development.
- (3) Demonstration.
- (4) Training.
- (5) Dissemination.
- (6) Utilization.
- (7) Technical assistance.

(b) Further one or more of the purposes listed in § 350.2.

(Authority: Sec. 202; 29 U.S.C. 761a)

§ 350.11 What are the general requirements for a Field-Initiated Project?

A Field-Initiated Project must—
